Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Applicant's election with traverse of Group II, claims 25-29 in the reply filed on 11/19/2004 is acknowledged. The traversal is on the ground(s) that it has not been established that there is an undue burden to examine the noted inventions and claims together. This is not found persuasive because at least part of the search needed for any one group is not necessarily needed for any other group. Therefore, there is an undue burden on the Examiner.

The requirement is still deemed proper and is therefore made FINAL.

Claim Objections

Claims are objected to because of the following informalities: In claim , line , it appears "" should be ---. Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 25 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 25, line 10, the terminology, "said collected goods information input unit" lacks antecedent basis.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 25-29 are rejected under 35 U.S.C. 103(a) as being unpatentable over the Mugita article, "ECO-BUSINESS AND REVERSE LOGISTICS", in view of Suzuki et al. '858 and an obvious design choice.

Mugita discloses a process of a plurality of enterprises mutually exchanging post-consumer merchandise of other enterprises, which are collected when each enterprise sells their own merchandise, and taking back the enterprise's own merchandise, wherein at the time of the exchange, and exchanging center is utilized.

Mugita lacks the specific type of information processing.

Suzuki et al. teach that it was well known in the art at the time of the invention to utilize information processing with a goods recycling system.

It would have been obvious to one of ordinary skill in the art at the time of the invention to modify Mugita to include information processing, as taught by Suzuki et al., in order to make it "possible to collect, process and furnish speedily a variety of information required for the processing or treatments of the discarded articles (See Suzuki et al., Col. 1, line 65 – Col. 2, line 3); the specific type of processing being a matter of design choice in order to achieve a desired result.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
